## LANDO CHAIR

In a sea of lounge chairs Lando makes a significant and refreshing splash. Its name alone will resonate with diehard Star Wars fans and Formula 1-McLaren enthusiasts. Expressing a unique silhouette and calm soft lines, Lando provides a quiet contemplative refuge in a myriad of environments.

Lando's effortless appearance belies its well-structured core; it is a strong and enduring piece. Its considered seat depth, backrest angle and arm height provide the perfect level of ergonomics, so it's seriously accommodating — some might say it's difficult to unseat oneself, and for that we are unapologetic. Design folk will love the option to choose their own fabrics, and or swap out the backrest and leg colours to suit their requirements.

Comfort level is high, design aesthetic is punching!
