DESIGN

LUMBER STOOL

Like all of the products in the Lumber range it's construction takes inspiration from traditional log cabins. The stools frame has been reduced to the barest structure possible, obtaining strength through clever notching creating the three-way interlocking knuckle-joints. These knuckle-joints, constructed in ash dowel, allow the lumber stool to achieve an expressive kind of minimalism.

Designer
Jamie McLellan
2009

Dimensions
Seat 390W x 270D x 720H

Standard Lead-time
4 / 6 weeks from order.

Aotearoa Design & Made

Features
Solid ash timber construction available in a natural clear finish or painted Resene / Havoc Red or Blackjack.
