MICHELIN

Not unlike the popular mascot, the Michelin tyre man, our Michelin stool looks very much like a couple of (we kid you not) stacked tyres.

Perhaps if you're a bit of a foodie, the name Michelin reminds you of the prestigious quality rating aspired to by restaurants around the world. It has nothing to do with the latter, but it is highly rated, and it does look like a couple of stacked tyres.

Simply put, it is an upholstered ottoman with a steel powdered coated base-ring.
