## SENNA

Is it a racing car or a stool with wheels? With a name inspired by the legendary F1 driver Ayrton Senna, one might assume the former.

Depending on your workplace environment the senna stool could be both. Senna straddles office practicality with the frivolity of friday night drinks with ease.

Senna can be fun to race but at it's core, it is an upholstered stool with a powder-coated modesty skirt to hide the wheels (of course) — a workplace essential.
